

PRESS RELEASE

BMZ TO EXHIBIT AT EES EUROPE

Karlstein am Main, Germany, May 16th, 2023 – BMZ Group, a global specialist in lithium-ion batteries, is pleased to be an exhibitor at ees Europe from June 14th – 16th, 2023, in Hall C2 with booth C2.555 at Messe München. Visitors can learn about the latest trends and technologies for renewable energy storage at the BMZ booth.

Among the exhibits at the BMZ booth, two new products are particularly noteworthy:

- BMZ will debut the Power4Home home storage system with integrated inverter.
- In addition, the Power2Go is a transportable energy storage unit that supplies the necessary power up to the high-current range wherever the stationary power network does not offer any connections or even fails. The Power2Go is particularly interesting, for example, for craftsmen, landscape gardeners, film production companies and many more, including the private sector.

In addition, the HYPERION® and ESS Z home storage systems will be on display at the stand, as well as the IndustriAE industrial storage system.

Under the motto "Innovating Energy Storage", ees Europe, Europe's largest and most international trade fair for batteries and energy storage systems, annually brings together manufacturers, distributors, project developers, system integrators, professional users and suppliers of innovative battery technologies and future-oriented solutions for the storage of renewable energies. The ees Europe is part of Europe's largest energy industry platform The smarter E Europe. Three other energy trade fairs are held in parallel to ees Europe: Intersolar Europe, the world's leading trade fair for the solar industry, Power2Drive Europe, the international trade fair for charging infrastructure and electromobility, and EM-Power Europe - the international trade fair for energy management and networked energy solutions. Together with the ees Europe Conference, ees Europe strengthens the role of energy storage as an important building block of the energy future.

Further information on the BMZ Group is available at www.bmz-group.com.

About BMZ Group:

BMZ Group is a global player in the development and production of cross-industry lithium-ion system solutions. It offers the complete value chain from the cell and the battery to second life and disposal. In addition to supplying markets such as medical, power- & gardentools as well as industrial applications, the BMZ Group sees itself primarily as THE GREEN ENERGY SYSTEM PROVIDER. With the production of home and industrial storage units for photovoltaic systems as well as batteries for electric mobility, BMZ manufactures the heart of the necessary infrastructure for the energy and transport turnaround. In view of the impending climate change and its consequences, the BMZ Group is thus fulfilling its social, economic and ecological responsibility. The Group is headquartered in Germany and has additional production facilities in China, Poland and the USA, as well as subsidiaries in Japan, the UK
