DETAILS

BMZ CHARGING PILE

Charging Product	E-Vehicle
Power	7 kW
Single Phase AC	230 V
Output Current	32A
Use	Households or Companies
Regulation	EU Standard
Connector	Type 2 Connector
Mounting	Wall Mounting or Standing
IP Class	IP54
Main Characteristic	Smart

BMZ CHARGING PILE

The 7kW BMZ Wallbox, certified according to EU standards, charges electric cars in record time with 230 V alternating current and an output current of 32 A. The wallbox is dust and splash-proof and available in different versions for mounting on the house wall or stand-alone, e.g. for parking spaces not direc-

tly located on the building. The BMZ Wallbox is smart charging capable. This allows private households or companies that install several wallboxes to smartly control all current charging processes at any time in order to exclude grid overload or load peaks that lead to classification in more expensive electricity tariffs.
